Tram Number 6 to ETH/Universitätsspital ① (third stop)

From there walk as indicated on the map below

By car

Please note that parking space is limited

Venue

Lecture hall C304 NORD 1, University Hospital Zurich, Frauenklinikstrasse 10

Roland Zimmermann

Martin Meuli

Invitation

Dear colleagues and friends

We take great pleasure to invite you to what we'd like to become a memorable international expert gathering that offers you a colorful (not only Doppler colors!) and comprehensive overview of STANDARDS in Maternal Fetal Medicine to feed your own work from. We are proud that numerous renowned opinion leaders in various core disciplines are willing to come to Zurich and share their expertise with you. We encourage vivid and also controversial discussions during and between sessions, and will allot abundant time for them. And finally, there will also be opportunities for you to find out whether the City of Zurich has rightly and repetitively been elected the world's most attractive city to live in.

We welcome all of you enthusiastically and wish you a fantastic overall experience!

Roland Zimmermann
Martin Meuli

Program

Friday, October 18, 2019

Time	Topic	Title / Speaker
13.30	Introduction	Welcome Roland Zimmermann, USZ
13.40	Scanning	First Trimester Scan 2020 Rabih Chaoui, Berlin
14.10	Genetics	NIPT vs. whole genome sequencing Mark I. Evans, New York
14.40	Fetal Heart	Detecting fetal heart defects Rabih Chaoui, Berlin
